

GET TO KNOW YOUR NEIGHBOURS

Look for Simple ways to introduce yourself

Be Direct- Knock on their door and simply say "Hi" and tell them who you are.

InDirect- Drop a note into their mailbox, you can use these cut out tabs if you like.

Opportunistic- If you receive a piece of their mail to your mailbox, rather than just put it into their mailbox, perhaps use it as an icebreaker to introduce yourself.

- **HI NEIGHBOUR**

Nice things to do for your NEIGHBOURS

Mow you Neighbours nature strip
*if you don't know them best to check first

Made too much dinner or have been baking? Why not put together a little treat for your Neighbours?

Cuppa on the Kerb... choose a time and meet Neighbours on the street for a catch up

Make a homemade gift, pick some flowers, herbs, or a little thought to say thank you to awesome Neighbours!

Just for FUN

What are the first 3 Words you see?

Local Business Networking Groups

- Westside Business Heart
- Local Business Women - The Gap & Surrounds

JOIN US TO HELP PROTECT THE COMMUNITY

QPS are encouraging the registration of private CCTV systems located in the Brisbane Inner West Patrol Group in order to prevent crime and make the community safer.

Knowing the location of established CCTV systems within the community will maximise the efficiency of investigative resources and minimise the loss of potential evidence. Locating cameras can be time consuming and resource intensive but is considered crucial, particularly in the case of serious investigations.

MAKE YOUR VEHICLE LESS ATTRACTIVE TO OFFENCERS

- Vehicles should be left locked with the windows up,
- Valuables should be kept out of sight
- Where possible, park in a well-lit, highly visible area
- Where possible, use off-street, or secure parking

- Anti-theft ONE-WAY screws can be fitted to your number plates FREE of charge by local Crime Prevention Officers

Phone Crime Prevention on (07) 3872 1542 at Ferny Grove Police Station to arrange an appointment.

One way screws are a replacement screw that are attached to the number plate of the vehicle.

The beauty of this screw is they go on with a standard screw driver but their unique design requires a special tool to remove them, making it near impossible for the average thief to steal them from a car.

Only Police have the special screw driver attachment to remove these screws should someone need to remove their plates.

PROTECT YOUR HOME

MAKE YOUR HOME THE TOUGHER TARGET BY MAKING IT:

- ☉ Harder for thieves to get in (LOCK everything even when you are at home)
- ☉ Harder to get out (if they do manage to get in, make sure it's difficult for them to have an easier access way out by making sure even windows are locked)
- ☉ Harder to get rid of your property (photograph valuables, engrave with your personal ID number - your initials/your full birthdate/ Q for Queensland, use UV pen, mirodots)
- ☉ Install reliable security screen doors on main external entrances
- ☉ Remember to actually key lock your security doors and remove the key from the lock
- ☉ Fit deadlocks on all external doors
- ☉ When moving in to your home or apartment, install new locks on entrance doors
- ☉ Never leave notes that indicate your absence
- ☉ Always take your door key with you, do not hide it, and never put your name and address on your key ring
- ☉ Get to know your Neighbours
- ☉ Observe and report suspicious activity
- ☉ Keep foliage trimmed back around your property so others can view suspicious activity
